

**“RSS” Rate**  
**Residential Seasonal Service**  
**Effective November 1, 2014**  
**212**

**Availability**

This rate is available for all residential seasonal electrical uses. To qualify for this rate, the metered account must serve a single-family seasonal residence.

**Character of Service**

The type of service rendered under this rate shall be limited to single-phase, sixty (60) Hertz, and at standard 120/240 voltage.

**Rate -- Monthly**

Facilities Charge:	\$ 36.00 per month
Energy Charge:	
First 500 kilowatt-hour usage per month	\$ .1125 per KWH
Next 1000 kilowatt-hour usage per month	\$ .0990 per KWH
All over 1,500 kilowatt-hour usage per month	\$ .0875 per KWH

**Minimum Monthly Charge**

- The minimum monthly billing charge under this rate shall be the Facilities Charge, or
- A minimum charge may be specified in a supplemental contract between the REMC and member.

**Conditions of Service**

- This rate has no transformer size limitation; however the member must identify the residence as “Seasonal” prior to enjoying the benefits of this rate.
- This rate is limited to single-phase service, with an individual electric motor limited to a maximum of 10 horsepower, unless approved by Heartland REMC.
- This rate requires seasonal service. Seasonal service is defined as service lasting less than 12 months. Heartland REMC must be notified at the beginning of service that the location will be seasonal.
- This rate is applicable to the “Delivered” energy that flows from the grid to the member equipment. When a renewable energy generation resource is interconnected to the Heartland REMC electric system, this rate shall not apply to the “Received” energy that flows back onto the grid. Assuming that an interconnection agreement is in place, “Received” energy shall be paid at “Avoided Cost” which will be adjusted from time to time.

### Wholesale Power Cost Adjustment

The above rates are subject to purchased power cost tracking adjustments as charged to Heartland REMC by its power supplier.
