

“NM” Rate
Single-Phase Non-Metered Service
Effective November 1, 2014

71

Availability

Where the monthly consumption of electricity is consistently small or can be predetermined with reasonable accuracy by reference to the capacity of equipment served and the hours of operations, Heartland REMC may, with customer’s consent, calculate electricity consumed in lieu of providing metering equipment. The calculated electricity consumption will be billed as described below.

Character of Service

The type of service rendered under this rate schedule shall be alternating current, sixty (60) Hertz, single-phase at standard 120/240 voltage unless otherwise approved by Heartland REMC.

Rate -- Monthly

Facilities Charge	\$ 9.00 per month
Energy Charge	
Kilowatt-hour usage per month	\$.1220 per KWH
Contract Add-On	If Applicable

Conditions of Service

- This rate is only available if approved by Heartland REMC for special service uses requiring transformer capacity of 3 KVA or less.
- Heartland REMC may require a pole attachment contract and fee if attaching device to Heartland REMC owned pole.

Wholesale Power Cost Adjustment

The above rates are subject to purchased power cost tracking adjustments as charged to Heartland REMC by its power supplier.
