

**Residential Energy Efficiency Program
Rebate Application
Effective 1/1/22 thru 12/31/22**

Application Instructions

1. Attach copy of your receipt detailing necessary information.
2. Return to Heartland REMC within 30 days of purchase.

Applicant Name (please print)	Phone Number	Account No.
Installation Address	City	Zip
Mailing Address	City	Zip

DESCRIPTION	Size/ Tons	Rebate Amount	Brand	Model No.	Purchase Date
Electric Water Heater \$100 for first \$50 for second (geo. installation) New construction or 10+ years electric or gas replacement <i>*Water Heater Must be at least 50 gal.*</i>					
Geothermal \$150/ton \$750 Maximum AHRI Certificate required					
Air Source Heat Pump (min. 15 SEER) \$125/ton \$625 maximum AHRI Certificate required					

The question below must be answered in order to receive the geothermal or air source heat pump rebate.

What type of system did you replace? Please check the box below.

- Electric Resistance (electric furnace, ceiling cable, baseboard)
- Fossil Fuel (propane, natural gas, or fuel oil)
- Replaced an older geothermal or air source heat pump
- Newly constructed home

By signing below, I certify that all the information listed above is true and correct and the installation address is served by Heartland REMC. The account applying for the rebate must match the installation address and is active with the REMC. I understand that Heartland REMC reserves the right to verify installation of the listed home appliance and that completion of this form does not guarantee my rebate. I acknowledge that Heartland REMC's Energy Efficiency Program is subject to change and funding availability. Limit one rebate per unit per household. By accepting this rebate, I give Heartland REMC permission to install a load management switch on my electric water heater. I also verify that I have not applied for other rebates from Heartland REMC or its power provider.
